

Health Analysis Report: Mom (Mi-Hyang Park)

EXECUTIVE SUMMARY

=====

Name: Mom (Mi-Hyang Park)
Age: 60 years (60-69 bracket)
Gender: Female
Analysis Period: 2023-06-16 to 2025-11-28 (867 days)
Generated: 2025-11-29 23:26

HEALTH SCORES

=====

Overall Score: 77/100 (Moderate)

Cardiovascular: 80/100
Respiratory: 75/100
Sleep: 77/100
Recovery: 56/100
Activity: 100/100

TOP RECOMMENDATIONS

=====

- 1. [HIGH] Respiratory: Screen for sleep apnea. Consider sleep study (polysomnograph...)
- 2. [HIGH] Sleep: Aim for 7-9 hours. Establish consistent sleep/wake times. Cr...
- 3. [HIGH] Sleep Debt: Prioritize sleep extension. Consider 20-min naps if needed. ...

Cardiovascular Health

HRV - +7 ms vs age median

Resting Heart Rate - -14 bpm vs median

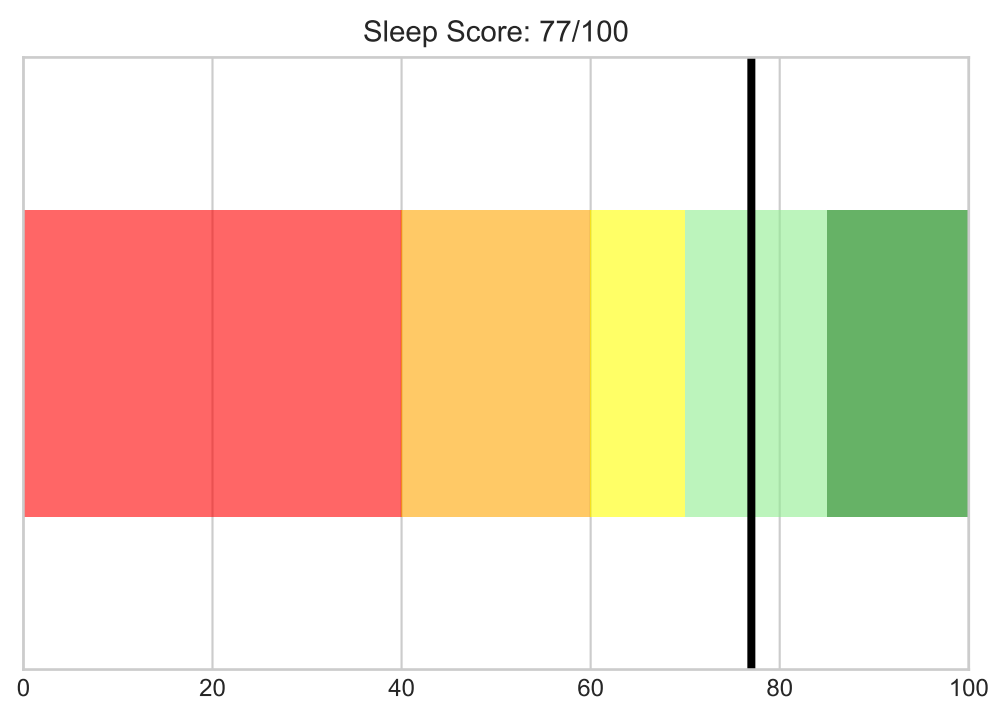

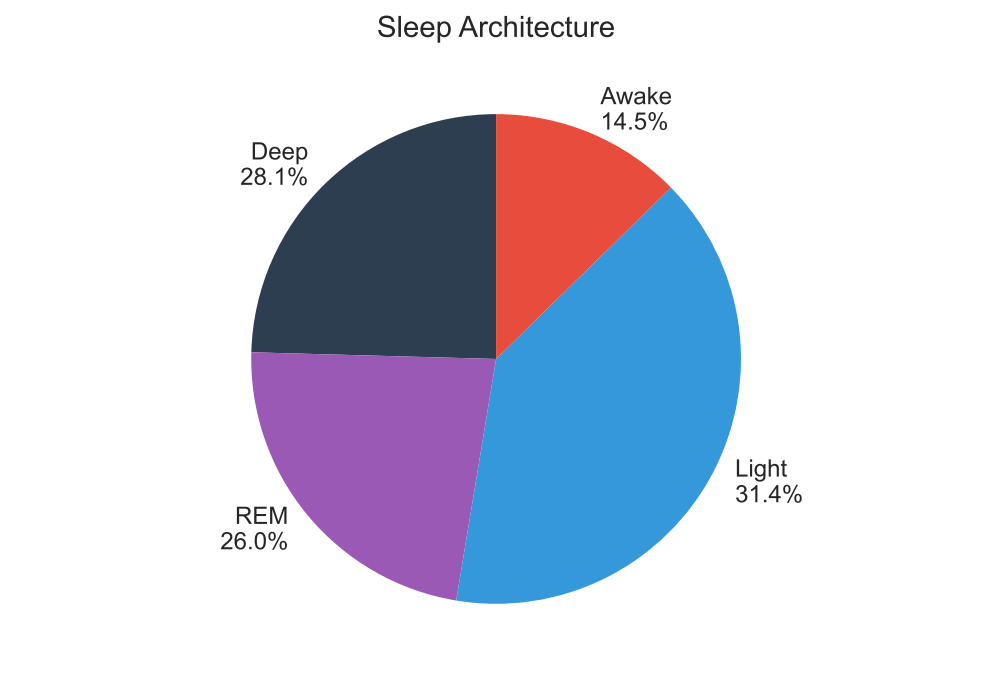

Current vs Previous Analysis

Cardiovascular Score: 80/100

Sleep Health

Recovery & Activity

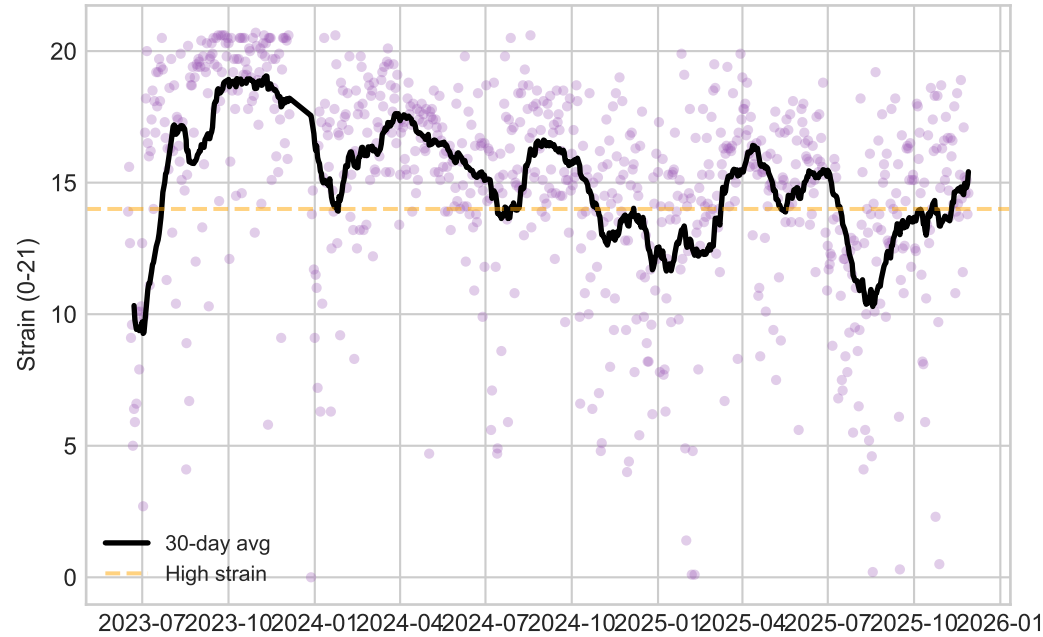

Recovery Score - Avg: 56%

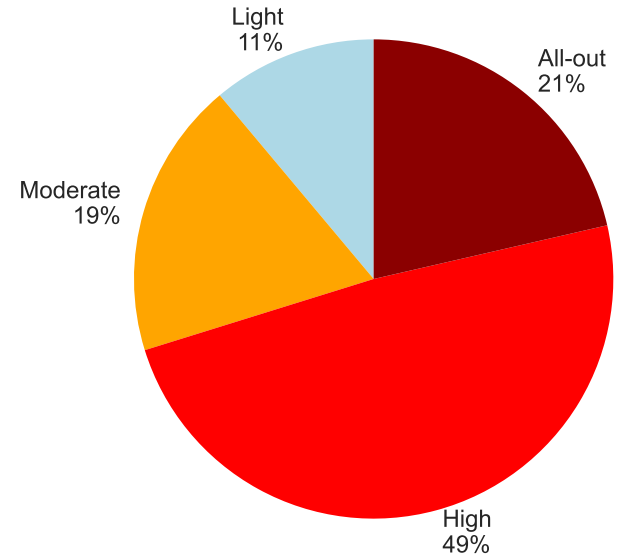

Recovery Distribution

Day Strain - Avg: 15.0

Activity Intensity Mix

Respiratory Health

Blood Oxygen (SpO2) - Avg: 92.7%

SpO2 Distribution (81.5% low)

Respiratory Rate - Avg: 14.6 rpm

Respiratory Score: 75/100

Correlation Analysis

HRV vs Recovery ($r=0.58$)

Sleep vs Recovery ($r=0.66$)

Strain vs Next Day Recovery ($r=-0.07$)

Deep Sleep vs Recovery ($r=0.48$)

RECOMMENDATIONS & ALERTS

ACTIVE ALERTS

[CRITICAL] Critical: 81.5% of nights with low SpO2
[WARNING] Severe sleep debt: 104.0 min average

RECOMMENDATIONS

- [HIGH] Respiratory
Finding: 81.5% of nights with SpO2 < 95%
Action: Screen for sleep apnea. Consider sleep study (polysomnography). Review sleeping position and nasal breathing.
Note: Frequent desaturations during sleep warrant medical evaluation for OSA.
- [HIGH] Sleep
Finding: Insufficient sleep duration (5.9 hours avg)
Action: Aim for 7-9 hours. Establish consistent sleep/wake times. Create sleep-conducive environment (dark, cool, quiet).
Note: Chronic sleep deprivation increases risk of obesity, diabetes, and CVD.
- [HIGH] Sleep Debt
Finding: Chronic sleep debt (104.0 min average)
Action: Prioritize sleep extension. Consider 20-min naps if needed. Address root causes of sleep restriction.
Note: Sleep debt accumulates and cannot be fully repaid with catch-up nights.

METHODOLOGY & CITATIONS

- This analysis uses medical benchmarks from:
- American Heart Association (AHA) 2024: <https://www.heart.org/en/health-topics/high-blood-pressure/understanding-blood-pressure-readings>
 - Whoop & Clinical Studies Meta-Analysis 2024
 - WHO & CDC Pulse Oximetry Guidelines 2024
 - National Sleep Foundation 2024
 - Clinical Guidelines (Cleveland Clinic 2024)
