**Chief Complaint**

Re-Pap Smear

**History of Present Illness**

Patient presenting for pap follow up.

She was part of the Japanese Embassy program.

pap completed ASCUS, hpv testing not performed was was negotiated with Embassy program.

she has had yearly pap and this is the first abnormal testing.

Based on guidelines recommendation for repeat cytology in one year or hpv testing.

Reviewed options with patient. Desires repeat Pap today.

She also wishes to discuss contraception. She is previously on OCPs and discontinued back in August to see how her cycles would be. She reports intermittent breast tenderness bilaterally without provocation. No increased activity. No trauma. Reports she feels like she is having some breast enlargement. She had recent breast ultrasound that was notable for small nodule behind the nipple in the right breast. It is recommended that she has breast follow up 6 months from 08/2025.

Denies history of breast, ovarian, uterine, colon cancer.

## **Patient Viewable Documents**

### **Physical Exam**

#### **Vitals & Measurements**

10/09/2025 15:17 P: 83 BP: 105/72 SpO<sub>2</sub>: 99%  
WT: 45.2 kg (99 lbs 10 oz)

LMP: 10/01/2025

#### **Most Recent LMP**

10/01/25

#### **Pain Assessment**

Pain Present: No actual or suspected pain (10/09/25 15:17:00)

**chaperone offered, patient declined.**

**Constitution:** Well developed, well nourished, in no acute distress.

**Cardio:** Warm and Well perfused.

**Pulm:** No increased Work of breathing.

#### **Pelvic Exam:**

**External Genitalia:** Normal appearance. No atrophy or lesions noted.

**Urethral Meatus:** Normal exam without prolapse or lesions.

**Urethra:** Normal exam; no masses, tenderness or scarring noted.

**Bladder:** Normal exam; no masses, fullness or tenderness noted.

**Vagina:** Normal appearance; no atrophy, discharge, or lesions noted.

**Cervix:** Normal appearance, os clear. No tenderness, lesions or discharge noted.

### **Assessment/Plan**

#### **1. Atypical squamous cells of undetermined significance (ASCUS) on Papanicolaou smear of cervix| (R87.610)**

based on ASCCP guidelines recommend HPV testing vs repeat pap in one year.

she desires repeat pap today.

pap collected + HPV.

plan of care pending results.

Reviewed if HPV +, recommendation for colpo.

#### **2. Contraception management| (Z30.9)**

Comprehensive contraceptive counseling was offered. Pt opted for ocp. Junel Rx sent to pharmacy.

if cost prohibitive, discussed use of Mark Cuban pharmacy for cost effective.

Will be able to send there in the future.

#### **3. Breast pain in female| (N64.4)**

continue monitoring sxs.

she has recent imaging with possible right breast change. if persistent, will plan for mammogram

Pt expressed understanding to plan of care. All questions answered to patient's satisfaction.

E/M decision level 4 for decision making.

Valencia Quiett, MD
